

Delivering a Modern and Affordable Alternative to Health Insurance

What is healthcare sharing?

We are a community of members who have voluntarily agreed to pay each other's medical expenses. Impact Health Sharing is not insurance – and we have no financial motives involved in how individuals pay for medical care.

Health care sharing, in its most contemporary form - which we institute - is a way for our members to pay each other's medical bills. With patented technology, we've simplified the process to share healthcare expenses in a faithful manner among our members with transparency and trust.

Why do we need healthcare sharing?

The U.S. health care system is in crisis. Today, health care bills are the leading cause of bankruptcy and generational poverty. According to the U.S. Department of Health and Human Services, about 26 million Americans are without health insurance. Alternatives to traditional health insurance like health care sharing are allowing families nationwide to meet their medical needs with cost efficiency and confidence in care.

What is Impact Health Sharing?

Our mission is simple and impactful. We believe in providing an inclusive experience while providing value and unprecedented transparency in the sharing of medical expenses. We have a shared belief in faith as the only requirement for becoming a member of Impact Health Sharing.

How does it work for members?

Each member chooses a Primary Responsibility Amount (PRA) that aligns with their family budget. This amount is like an insurance deductible and is the amount the member is responsible for paying before bills can be shared. Once the PRA has been met and the co-share applied, the medical bills will be considered for sharing and paid by other members as pursuant to the eligibility criteria. Health care sharing has proven to be a valuable and affordable alternative for many people of faith to pay their medical expenses.

What are the benefits of healthcare sharing?

- + It's Affordable:**
Plans start as low as \$73 for individuals and \$378 for families, with special pricing for seniors.
- + It's Comprehensive:**
Members experience a comprehensive medical experience and access to preventative care, mental health care, prescription discounts, and telemedicine available 24/7.
- + It's Accessible:**
Members may see any doctor of choice without network fees or limitations.
- + It's Inclusive:**
Impact Health is open to any faithful person(s) who is interested in sharing and saving on their healthcare.

Checks and Balances

- Modern health care sharing organizations like Impact Health Sharing provide for the necessary ethics and transparency review required for not-for-profit organizations.
- Medical expenses are paid from members to members and the funds are never pooled with distinct oversight in detailed monthly reports, full disclosure of administrative expenses, closing the door on any abuse of participant funds.
